

My name is Inés Sánchez Simó. I am a Rivas Luna student and I would like to participate in Comenius project.

I am interested in this project because I like working and travelling too. So it would be a good opportunity to do these two things.

And I think that meeting people from other countries, and especially working together it would be a good experience.

In my opinion, I am suitable for that project because I have good qualities.

I'm keen on speaking in public and I enjoy working on projects. Especially if it is teamwork because it is a good way to exchange ideas and I can give a lot of ideas too.

About my experiences I was in an exchange and I had to speak English all the time. I also have the B1 grade, so I think, I have a good level of English and I could communicate well with the rest of people to work on the project.

To contribute, I have to try hard, I am going to use my imagination and offer all my skills and ideas to achieve the project objective.

Hello my name is Carmen Kraaykamp and I am 15 years old. I was born on the 17<sup>th</sup> of november, 2000 in Holland. At the age of 4 I moved to Valencia and this is the place where I live now.

I study in Rivas Luna school in L'Elisava (Valencia) I'm doing the science branch and, therefore, I'm learning biology, chemistry, maths but I also learn Spanish, Valencian dialect, english and German. I like languages very much and this is one of the reasons that I would like to apply for the project. I learn english very easily because I speak Dutch and this helps me to speak it very well. At home I enjoy reading many books in English and this becomes very simple for me.

I have a lot of hobbies. I practice two sports: Horse-riding and tennis. I like these sports a lot.

I consider myself a creative person and I really like to take part in this project. I enjoy working with people so I think I am most suitable for this project.

I think it's a project that can help us to learn a lot of english and I also think this is a very special opportunity to develop other skills such as multiculturalism.
