

# Technical College “Mihai Băcescu”

**Second Learning and Teaching Activity (LTTA) – Information and Media Literacy**  
**Fălticeni-Romania, 3-7 October 2016**

**Contemporary Literacy In Contemporary Kids – C.L.I.C.K. Nr. 2015-1-EE01-KA219-013456-3**

# Technical College "Mihai Băcescu"

# We are a "European School" from Suceava county

# We are ...

- The history of our school began in the autumn of 1920, when, based on the Law of the School Comitees, in Falticeni, the **Secondary school for girls “Princess Elena”** was founded.

Along the time, since its founding and until now, “the biography of the school” shows numerous changes in terms of the profile or the educational levels, changes due, mostly because of the educational reform:

- 1920 - 1930 Secondary School for girls “Princess Elena”
- 1930 - 1945 Gymnasium for Girls “Princess Elena”
- 1947 – 1953 Teaching School for Girls Fălticeni
- 1953 - 1967 Average school No. 2 Fălticeni
- 1967 - 1974 High School No. 2 Fălticeni
- 1974 - 1975 High School of Textile and Clothing Fălticeni
- 1975 - 1980 School Group M.I.U Fălticeni
- 1980 - 1993 Industrial High School No. 1 Fălticeni
- 1993 - 1996 School for Soft Industry Fălticeni
- 1996 - 1998 School No. 1 Fălticeni
- 1998 - 2007 High School "Mihai Băcescu" Fălticeni
- 25.07.2007 Techincal College "Mihai Băcescu" Fălticeni.

- **On the 28<sup>th</sup> of March 1998**, the high school got the name of the academician Mihai Băcescu, day that was to be celebrated and honored here, in Fălticeni, at our high school, celebrating 90 years of his age.

- ❑ Technical College „Mihai Băcescu” Falticeni is a representative school for Suceava county, regarding the educational services offered and the diversity of fields and specializations in accordance with the requirements of the formation for the younger generation.
- ❑ The 1480 students who are in our school in 57 classes, are guided by a group of 80 teachers, along with 35 members of auxiliary staff, ensuring a suitable climate for education and training.

Therefore, today, the school provides educational services in the initial training for the fields:

- ✓ **High School - theoretical branch** – real profile  
(Mathematics-Informatics, Natural Sciences) and humanities  
(Philology and Social Sciences);
- ✓ **High School – technological branch** - technical profile with  
the specializations: computers technician operator, transport  
technician, automatics technician, electromechanical  
technician, technician in textiles, clothing designer technician;  
Services technician with specialization in tourism and  
gastronomy;
- ✓ **Vocational education** with specializations: textiles  
manufacturer, and auto-mechanic.

□ Technical College „Mihai Băcescu” Falticeni implemented so far over 50 European projects run by students and teachers within the European educational partnership programs.

# In autumn the freshmen(buds) are counted

# Educational offer for the school year 2016-2017

- **QUALIFICATION : Tourism Technician**

- **FIELD : Tourism and alimentation**
- **QUALIFICATION : Gastronomy Technician**

## **A name, a museum, a school- Mihai Băcescu**

The name Mihai Băcescu is close to the city Fălticeni and especially to our college.

Each year, on the 28<sup>th</sup> of March, we celebrate the “Days of the school” while paying homage to the patron of our school.

- **Mihai Băcescu** permanently left his print on Fălticeni in 1982, when „as a sign of recognition and love”, as he stated, he helped at the establishment of a unique museum in the country because of its theme - **Water Museum (Muzeul Apelor)**.
- The researcher has gathered materials from the Pacific, Atlantic and Indian oceans himself and placed them himself here. Starting with the 28<sup>th</sup> of March 1993, the museum took his name, chosen as a gesture of gratitude and appreciation to the one that gave Fălticeni new value dimensions.

# Center of Documentation and Information (CDI)

- **Center of Documentation and Information** is a center for multidisciplinary resources, which offers the students, teachers and the local community, a training place, communication and informing, a laboratory of experiments of new educational technologies, a place of culture, meetings and integration.
